RFQ EVAL CRITERIA

1. This Request for Quotations (RFQ) covers the furnishing of PC-based Digital Servo-Hydraulic Control System to control several Servo-Hydraulic Fatigue Machine/Test Stations at the Naval Surface Warfare Center, Carderock Division (NSWCCD), Materials Department (Code 61) located at West Bethesda, MD. The Control System to be furnished, which will replace existing *MTS-458* Analog Controllers, shall be in strict accordance with the requirements contained in the Hydraulic Control System Purchase Description
2. This RFQ is issued using Simplified Acquisition Procedures pursuant to the Test Program for Certain Commercial Items in accordance with Subpart 13.5 of the Federal Acquisition Regulation (FAR). The Government intends to make an award to the responsible offeror whose quotation conforming to the RFQ is determined to be most advantageous to the Government, price and other factors considered. The following factors will be used to evaluate quotations: Technical Compliance, Systems Support, Corporate Experience and Price. Technical Compliance, Systems Support and Corporate Experience, when combined, are considered more important than price
3. In order to evaluate quotations, offerors are required to submit information as part of their quotation addressing the factors of Technical Compliance, Systems Support and Corporate Experience as follows:
 - a. Under Technical Compliance offerors must furnish information describing the equipment it intends to furnish in sufficient detail to demonstrate that it meets the technical requirements contained in the Purchase Description. This may include product literature, brochures, etc. In addition, offerors must also identify major milestones together with a schedule (such as when it intends to begin and complete System installation, perform operational testing of the System, conduct the training, etc.) to demonstrate that performance will be accomplished within 150 days after the date of contract.
 - b. Under Systems Support offerors must provide information on the support it proposes to furnish for the system, such as terms of any warranty, on-line technical support and software upgrades, as well as information on the System training it intends to conduct. Information on the training, for example, should include the training duration, topics that will be covered, etc.
 - c. Under Corporate Experience offerors must provide (a) information on its company's experience in furnishing and installing same or similar equipment and (b) information on its financial resources and that it possess, or has the capability to obtain, the necessary organization and production abilities and technical experience and skills to furnish and install the Hydraulic Control System.
4. Quotations that fail to address the above technical factors, or that fail to contain sufficient information to permit the Government to conduct an adequate technical evaluation will be rejected. The Government intends on making an award based on the initial quotations received. Therefore, an offeror's initial quotation should contain its best offer from both a price and a technical standpoint.
5. In accordance with Clause 52.237-1 herein, offerors will be afforded the opportunity to conduct a site visit of the area where the Hydraulic Control System will be installed. The site visit is scheduled to be conducted on Thursday, 13 July 2006 between 12:00 & 3:00 PM ESDT. Offerors must contact (E. Rainey, code 3351.1, (215) 897-7061, email: Elizabeth.Rainey@navy.mil) no later than Monday, 10 July 2006 to arrange participation in the site visit.

PURCHASE DESCRIPTION

HYDRAULIC CONTROL SYSTEM PURCHASE DESCRIPTION

1.0 SCOPE:

1.1 This Purchase Description establishes requirements for a PC-based Digital Servo-Hydraulic Control System intended to replace existing MTS-458 Analog Controllers used to control several Servo-Hydraulic Fatigue Machine/Test Stations for the Naval Surface Warfare Center, Carderock Division, Materials Department (Code 61), located at West Bethesda, MD.

2.0 BACKGROUND:

2.1 The existing equipment is comprised in an arrangement of 5 independent uniaxial load frame test stations. The load capacities of each test station are ± 20 kips (3 MTS stations) and ± 100 kips (2 MTS stations). Each test station uses MTS 458 controllers, servo valves, and cables. Two hydraulic pumps supply the five test stations with one pump serving the 3 20-kip stations and a second pump serving the 2 100-kip stations. Both pumps are MTS model 510.21 C with a 21.2 gpm flow rate at 3000 psi and a 460V power supply. All stations use MTS service manifolds with 120V low and high pressure solenoids. All stations use two-stage servo valves. Each test station is operated independently from the others through its own load (DC), stroke (AC/LVDT), and strain (DC) feedback. Although several stations also contain a function generator, a computer and external electronics are used to generate a continuous command signal for constant and random amplitude fatigue loadings defined by peak and trough endpoints.

3.0 REQUIREMENTS:

3.1 The new PC-based Hydraulic Control System to be furnished shall control each test station in either load (DC) or stroke (AC/LVDT), and be upgradeable to include strain (DC) or accommodate the control of other actuator. The control system must be capable of generating a continuous command signal for static ramp loadings, constant and random amplitude fatigue loadings defined by peak and trough endpoints, arbitrary block loadings, and follow a command signal input from an external source such as in-house written software.

3.2 The location for the control electronics will reside no further than 75 feet away from the test stations and 100 ft from the hydraulic power supplies. It is the intent of this procurement to obtain Commercial off-the-Shelf (COTS) digital control electronics and software that separately and simultaneously control the five test stations.

3.3 The Hydraulic Control System must possess the following features and characteristics:

- a. Digital Control Electronics compatible with existing hydraulic power supplies, MTS service manifolds, cabling, and solenoids,
- b. Must be compatible with existing test software (i.e., must accept external command signals), as well as any FTA (Fracture Technology Associates) software without the need for a separate computer (FTA software to operate on same PC as controller),
- c. Software capable of performing ASTM E647, E466, and E606 test standards,
- d. Ability to control any and all of test stations remotely from central location (i.e., networked system),
- e. Control modes of both load and stroke, upgradeable to include strain control,
- f. High frequency data acquisition with greater than 16 bit conversion,
- g. Simultaneous real-time graphical and digital data acquisition displays and data compatibility with Microsoft Excel,

3.4 The contractor shall furnish, install, calibrate and perform an operational test of the Hydraulic Control System.

3.5 The contractor shall provide user's manuals and technical documentation necessary for the operation, maintenance and calibration of the Hydraulic Control System.

3.6 The contractor shall provide training to approximately 10 NSWCCD Code 61 personnel on the operation, maintenance and calibration of the Hydraulic Control System.

52.212-1 INSTRUCTIONS TO OFFERORS--COMMERCIAL ITEMS (JAN 2006)

(a) North American Industry Classification System (NAICS) code and small business size standard. The NAICS code and small business size standard for this acquisition appear in Block 10 of the solicitation cover sheet (SF 1449). However, the small business size standard for a concern which submits an offer in its own name, but which proposes to furnish an item which it did not itself manufacture, is 500 employees.

(b) Submission of offers. Submit signed and dated offers to the office specified in this solicitation at or before the exact time specified in this solicitation. Offers may be submitted on the SF 1449, letterhead stationery, or as otherwise specified in the solicitation. As a minimum, offers must show--

- (1) The solicitation number;
- (2) The time specified in the solicitation for receipt of offers;
- (3) The name, address, and telephone number of the offeror;
- (4) A technical description of the items being offered in sufficient detail to evaluate compliance with the requirements in the solicitation. This may include product literature, or other documents, if necessary;
- (5) Terms of any express warranty;
- (6) Price and any discount terms;
- (7) "Remit to" address, if different than mailing address;
- (8) A completed copy of the representations and certifications at FAR 52.212-3 (see FAR 52.212-3(j) for those representations and certifications that the offeror shall complete electronically);
- (9) Acknowledgment of Solicitation Amendments;
- (10) Past performance information, when included as an evaluation factor, to include recent and relevant contracts for the same or similar items and other references (including contract numbers, points of contact with telephone numbers and other relevant information); and
- (11) If the offer is not submitted on the SF 1449, include a statement specifying the extent of agreement with all terms, conditions, and provisions included in the solicitation. Offers that fail to furnish required representations or information, or reject the terms and conditions of the solicitation may be excluded from consideration.

(c) Period for acceptance of offers. The offeror agrees to hold the prices in its offer firm for 30 calendar days from the date specified for receipt of offers, unless another time period is specified in an addendum to the solicitation.

(d) Product samples. When required by the solicitation, product samples shall be submitted at or prior to the time specified for receipt of offers. Unless otherwise specified in this solicitation, these samples shall be submitted at no expense to the Government, and returned at the sender's request and expense, unless they are destroyed during preaward testing.

(e) Multiple offers. Offerors are encouraged to submit multiple offers presenting alternative terms and conditions or commercial items for satisfying the requirements of this solicitation. Each offer submitted will be evaluated separately.

(f) Late submissions, modifications, revisions, and withdrawals of offers.

(1) Offerors are responsible for submitting offers, and any modifications, revisions, or withdrawals, so as to reach the Government office designated in the solicitation by the time specified in the solicitation. If no time is specified in the solicitation, the time for receipt is 4:30 p.m., local time, for the designated Government office on the date that offers or revisions are due.

(2)(i) Any offer, modification, revision, or withdrawal of an offer received at the Government office designated in the solicitation after the exact time specified for receipt of offers is "late" and will not be considered unless it is received before award is made, the Contracting Officer determines that accepting the late offer would not unduly delay the acquisition; and--

(A) If it was transmitted through an electronic commerce method authorized by the solicitation, it was received at the initial point of entry to the Government infrastructure not later than 5:00 p.m. one working day prior to the date specified for receipt of offers; or

(B) There is acceptable evidence to establish that it was received at the Government installation designated for receipt of offers and was under the Government's control prior to the time set for receipt of offers; or

(C) If this solicitation is a request for proposals, it was the only proposal received.

(ii) However, a late modification of an otherwise successful offer, that makes its terms more favorable to the Government, will be considered at any time it is received and may be accepted.

(3) Acceptable evidence to establish the time of receipt at the Government installation includes the time/date stamp of that installation on the offer wrapper, other documentary evidence of receipt maintained by the installation, or oral testimony or statements of Government personnel.

(4) If an emergency or unanticipated event interrupts normal Government processes so that offers cannot be received at the Government office designated for receipt of offers by the exact time specified in the solicitation, and urgent Government requirements preclude amendment of the solicitation or other notice of an extension of the closing date, the time specified for receipt of offers will be deemed to be extended to the same time of day specified in the solicitation on the first work day on which normal Government processes resume.

(5) Offers may be withdrawn by written notice received at any time before the exact time set for receipt of offers. Oral offers in response to oral solicitations may be withdrawn orally. If the solicitation authorizes facsimile offers, offers may be withdrawn via facsimile received at any time before the exact time set for receipt of offers, subject to the conditions specified in the solicitation concerning facsimile offers. An offer may be withdrawn in person by an offeror or its authorized representative if, before the exact time set for receipt of offers, the identity of the person requesting withdrawal is established and the person signs a receipt for the offer.

(g) Contract award (not applicable to Invitation for Bids). The Government intends to evaluate offers and award a contract without discussions with offerors. Therefore, the offeror's initial offer should contain the offeror's best terms from a price and technical standpoint. However, the Government reserves the right to conduct discussions if later determined by the Contracting Officer to be necessary. The Government may reject any or all offers if such action is in the public interest; accept other than the lowest offer; and waive informalities and minor irregularities in offers received.

(h) Multiple awards. The Government may accept any item or group of items of an offer, unless the offeror qualifies the offer by specific limitations. Unless otherwise provided in the Schedule, offers may not be submitted for quantities less than those specified. The Government reserves the right to make an award on any item for a quantity less than the quantity offered, at the unit prices offered, unless the offeror specifies otherwise in the offer.

(i) Availability of requirements documents cited in the solicitation.
